SINCE 1974

IMCC INTERNATIONAL MARINE CONSTRUCTION COMPANY

Your Partner in Offshore and Marine Excellence

About Us

Our History

Established in 1974, IMCC is one of Kuwait's longest-standing offshore and marine service providers for the oil and gas sector. The company began as a joint venture between CMS and eight Japanese firms led by Nippon Steel Corporation, shaping IMCC's early culture of technical excellence, innovation, and reliability.

Our Expertise

Today, IMCC is a trusted marine contractor delivering offshore construction, subsea works, marine logistics, vessel operations, and complex energy-related marine projects. Our expertise is built on strong engineering capability, high operational standards, and a deep understanding of regional marine environments.

Over 50 Years of Marine Excellence & Ongoing Innovation

IMCC has long been a trusted partner in Kuwait's marine and offshore sector, supporting ports, oil and gas operators, EPC contractors, and government entities with dependable and high-performance marine services. Deep regional insight and strong operational capability enable the company to deliver safe, sustainable, and efficient solutions across Kuwait and the wider GCC.

Rooted in QHSSE excellence and supported by a dedicated team of marine professionals, IMCC continues to evolve with the energy transition and offshore support services. The company invests in new assets, modern technologies, and strategic partnerships to meet the next generation of offshore and coastal development needs.

Built on Safety, Quality, and People

Vision

To set the benchmark for offshore and marine services by advancing innovation, elevating service quality, and shaping the future of marine operations.

Commitment

To maintain the highest standards of safety and service quality by investing in our people. Through skilled recruitment, continuous training, and a workplace culture that values performance, collaboration, and accountability.

Mission

To deliver reliable and high-quality marine services through operational excellence, experienced teams, modern assets, and a strong commitment to QHSSE, sustainability, and long-term value creation.

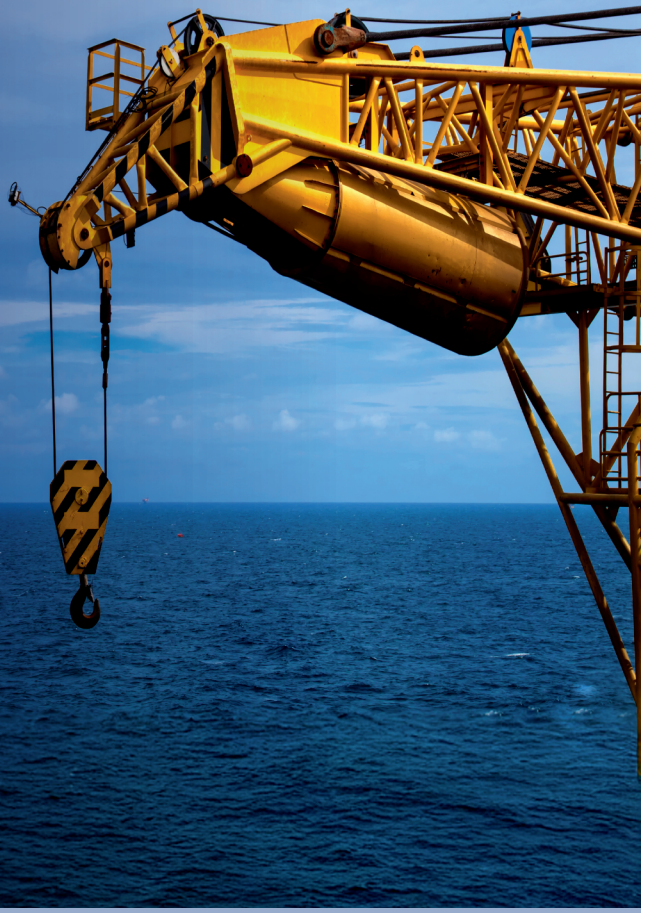

Operational Excellence in Marine & Offshore Services

IMCC delivers fully integrated marine and offshore services across complex project lifecycles, executing operations with precision, technical depth, and uncompromising safety standards. The company supports demanding marine environments through disciplined execution that drives operational efficiency, risk control, and reliable project delivery, aligned with the evolving requirements of the energy and maritime sectors.

Safety, Quality & Performance as Operating Standards

Safety, quality, and performance guide how IMCC delivers its marine and offshore services. All operations follow international standards to ensure safe, compliant, and reliable project execution.

A consistent QHSSE approach supports all activities through regular audits, certified training, and continuous improvement.

COMPETENCE

Experienced marine crews, certified divers, vessel captains, and engineers with the skills and experience to deliver safe and efficient offshore operations.

CERTIFICATIONS

ISO-certified, QHSSE-compliant, and fully approved by national regulators, with recognized industry certifications.

STANDARDS

Clear safety procedures, risk reviews, equipment checks, and regular training applied consistently across all projects.

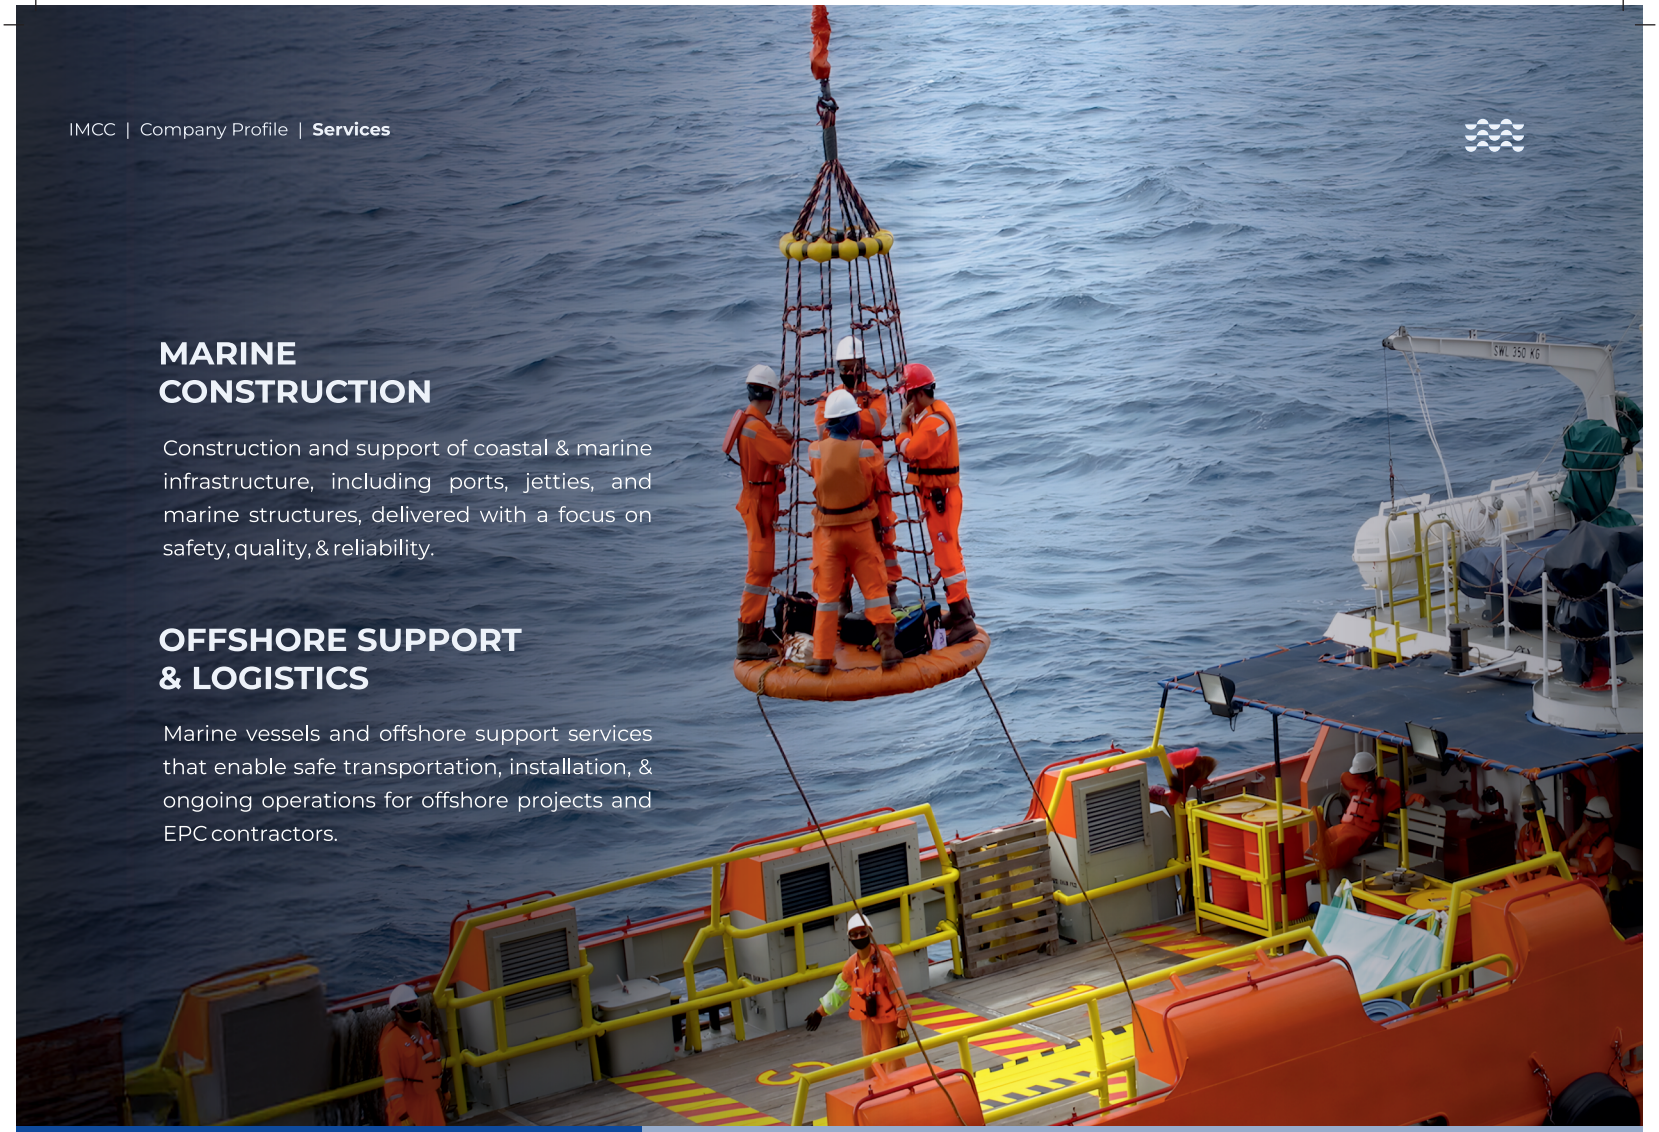

Integrated Marine & Offshore Services

MARINE CONSTRUCTION

Construction and support of coastal & marine infrastructure, including ports, jetties, and marine structures, delivered with a focus on safety, quality, & reliability.

OFFSHORE SUPPORT & LOGISTICS

Marine vessels and offshore support services that enable safe transportation, installation, & ongoing operations for offshore projects and EPC contractors.

Trusted. Proven. Ready.

For more than 50 years, we have played a role in building Kuwait's marine future, guided by experience, innovation, and operational excellence. We are ready to support your next marine or offshore project with the same dedication and professionalism trusted across the region.

IMCC Board of Directors

Ahmad Saad Al-Mnaifi
Chairman

A senior executive leader who oversees strategic direction, governance, and long-term growth at IMCC, while also leading Global Marine Construction Company to drive regional expansion and key partnerships.

Chairman message:

At IMCC, our foundation is built on trust, capability, and a commitment to delivering high-quality marine and offshore solutions. Over more than five decades, we have earned a strong position in Kuwait's energy and marine sectors, and today we are advancing into a new phase of growth focused on stronger regional presence, enhanced capabilities, and operational excellence. Our strategy is clear; strengthen our core services, expand strategic partnerships, and continue delivering value with the highest standards of safety, efficiency, and reliability. We remain committed to supporting national priorities, contributing to the marine industry's development, and serving as a dependable partner for large-scale and long-term projects.

I am proud of the team driving IMCC forward. With disciplined governance, strong leadership, and a clear vision, IMCC is well positioned for sustainable growth and to meet the region's evolving needs.

Maen Mahmoud Razouqi
Vice Chairman & CEO

A senior corporate leader with international experience across the energy and aviation sectors. Mr. Maen oversees the company's strategic direction, performance, and regional growth, while strengthening partnerships and long-term development initiatives.

Dr. Abdulaziz Alrashed
Director

A senior business leader with experience across industrial, contracting, and marine services. Dr. Al-Rashed holds a Ph.D. in Electrical Engineering from the University of Wisconsin–Madison and serves on Kuwaiti company boards, bringing strategic leadership experience to IMCC.

Abdulaziz Hasan Al-Jarallah
Director

A senior public-sector leader with experience in financial administration, policy development, and institutional governance. Mr. Abdulaziz has held key government roles and represented Kuwait on regional and international committees, supporting IMCC's board oversight and strategic planning.

Faisal Ibrahim Al-Hairi
Director

A senior government and business leader with experience in public administration, marine services, and corporate governance. Mr. Faisal has held senior roles within the Council of Ministers and serves on multiple boards, contributing to IMCC's governance framework and strategic direction.

Management Team

Amal Halal Madi
Head of Finance & Support Services

Bringing more than three decades of leadership experience, Amal directs financial strategy and oversees internal support functions across the organization. She ensures financial integrity, operational efficiency, and effective cross-functional coordination to enable sustainable performance and disciplined governance.

Moosa Jassim
Head of Operations & Performance

With three decades of international experience in energy and infrastructure, Moosa oversees operational excellence and large-scale project execution. He drives performance improvement initiatives, enhances delivery standards, and ensures efficient execution across upstream, midstream, and marine sectors.

Hassan Kombarji
Legal Counsel

A senior legal executive with more than two decades of regional and international experience, Hassan leads corporate governance, regulatory compliance, and complex commercial matters. He provides strategic legal guidance, strengthens compliance frameworks, and ensures effective risk mitigation across operations.

Ricardo Cuervo
Head of Commercial & Growth

With more than three decades of global experience in energy services, Ricardo leads commercial strategy, business development, and market expansion initiatives. He strengthens competitive positioning, drives revenue growth, and advances long-term transformation across regional operations.

Partnerships

We maintain strategic partnerships with leading regional and international organizations to strengthen our technical capabilities, expand our geographic reach, and deliver integrated marine and offshore solutions. These partnerships enable us to combine local expertise with global standards, ensuring operational excellence, compliance, and scalability across our projects.

IMCC MARINE & ENERGY SERVICES – QATAR

IMCC QATAR
JV with DULSCO

(Joint Venture between IMCC & Dulsco)
IMCC Marine & Energy Services is a Qatar-based joint venture established with Dulsco to support the Qatari market with integrated marine, offshore, and energy support services. The JV strengthens IMCC's local presence in Qatar, enabling delivery of compliant, high-quality solutions across marine operations, offshore support, logistics, and industrial services in alignment with national energy sector requirements.

ONE MARINE ADGM

one marine

(Joint Venture between IMCC & Maridive) One Marine is an Abu Dhabi Global Market (ADGM) registered joint venture between IMCC and Maridive, formed to deliver comprehensive offshore and marine support services. The partnership combines IMCC's regional operational strength with Maridive's international offshore and vessel expertise, creating a strong platform for fleet management, offshore support vessels, marine operations, and regional expansion.
